

BOARD OF SELECTMEN
June 13, 2018
Needham Town Hall- Powers Hall
Agenda

1.	7:30	Public Hearing: Grant of Location for Eversource Energy – West Roxbury to Needham Reliability Project
-----------	-------------	--

**Board of Selectmen
TOWN OF NEEDHAM
AGENDA FACT SHEET**

MEETING DATE: 6/13/2018

Agenda Item	Public Hearing: Eversource Energy – West Roxbury to Needham Reliability Project
Presenter(s)	Domenic Nicotera, Project Manager

1.	BRIEF DESCRIPTION OF TOPIC TO BE DISCUSSED Eversource Energy requests permission to construct a new transmission line within the public ways as shown on attached drawings. Project route is described as: commences at 15 Valley Road and continues west then south for approximately ¼ of a mile and then turns to the southwest at the intersection of Peacedale Road. It follows Peacedale Road for approximately ¼ of a mile to the intersection of Great Plain Avenue where it turns to the northwest. Then it continues for approximately 3/10 of a mile to the intersection of South Street then turns to the South. Then it follows along South Street for approximately 1 4/10 miles to the intersection of High Rock Street where the route turns slightly to the north. Then it follows along High Rock Street for approximately 5/10 of a mile to the point where the existing Eversource Transmission Line right of way is located. This work would replace one of the two existing overhead transmission lines that currently run between the Baker Street and Needham Substations on a line of double circuit towers (DCT). The replacement 115 kV line would be installed on a combination of new overhead structures and underground. The Project, separating the lines on the existing DCT, is designed to improve system reliability in the event of contingencies including disruption to the existing DCT. The Energy Facilities Siting Board has issued a final decision on this project dated May 18, 2018 and as part of the decision the Noticed Alternative Route was approved for this project. The Department of Public Works has approved this petition, based on Eversource Energy's commitment to adhere to the Town's conditions as described in the motion.
2.	VOTE REQUIRED BY BOARD OF SELECTMEN <u>Suggested Motion:</u> Move that the Board of Selectmen approve and sign a petition from Eversource Energy to install a new transmission line within the public ways as shown on the Noticed Alternative Route subject to the following conditions: 1. Any design deviations must be approved in advance by the Director of Public Works/designee. 2. Any traffic management plan changes must be approved in advance by the Chief of Police/designee. 3. Construction hours are limited to Monday through Friday from 7:00 a.m. to 5:00 p.m. (excluding holidays) and 9:00 a.m. to 5:00 p.m. in school zones where the school is in use except for extraordinary circumstances approved in advance by the Town Manager. 4. The Chief of Police or his designee is authorized to order the work stopped if it is deemed necessary in his judgment, and to also alter the traffic management plan

**Board of Selectmen
TOWN OF NEEDHAM
AGENDA FACT SHEET**

depending on conditions in the field.

5. The final project will include gutter to gutter paving of all public ways involved in the route.
6. The applicant will conduct pre- and post-construction EMF monitoring in accordance with a protocol approved by the Town Manager on behalf of the Board of Selectmen.
7. The applicant will comply with all provisions of the Street Permit Procedures & Regulations dated April 1, 2012 specifically including the excavations, backfilling and paving provisions of Section 9.
8. The Board of Selectmen reserves the right to impose additional conditions as warranted.

RE: Petition for Grant of Location in Town Ways

Dear Mrs. Cincotta:

Pursuant to G.L. c. 166 § 22, NSTAR Electric Company d/b/a Eversource Energy (hereinafter the "Petitioner" or "Eversource"), a company incorporated for the transmission of electricity for lighting, heating or power, hereby submits this Petition for a Grant of Location ("GOL") to the Town of Needham, MA. See attached Exhibit A. The Petitioner respectfully requests the Town of Needham by order to issue the GOL to the Petitioner for construction of a new electric transmission line within public ways as provided for herein. See attached Exhibit B.

Project Description

Approximately 15,000-feet of new underground transmission line cable are proposed to be installed within the public ways of the Town of Needham. The proposed underground transmission line will consist of a "duct bank" with electric transmission cables installed within individual High-Density Polyethylene ("HDPE") conduits. The duct bank will consist of four 8⁵/₈-inch-diameter HDPE conduits, as well as two 4-inch-diameter Polyvinyl Chloride ("PVC") conduits, and two 2-inch-diameter PVC conduits to carry communications lines and ground continuity conductors.

Project Route

In the Town of Needham, the underground project route along public ways commences at a point located at 15 Valley Road and continues west then south for approximately ¼ of a mile then turns to the southwest at the intersection of Peacedale Road. It follows Peacedale Road for approximately ¼ of a mile to the intersection of Great Plain Avenue where it turns to the northwest. Then it continues for approximately 2/10 of a mile to the intersection of South Street then turns to the South. Then it follows along South Street for approximately 14/10 miles to the intersection of High Rock Street where the route turns slightly to the north. Then it follows along High Rock Street for approximately 5/10 of a mile to the point where the existing Eversource Transmission Line right-of-way is located. See Exhibit C for a 1"= 6,000' scale aerial locus map of the project.

Grant of Location Request
West Roxbury to Needham DCT Separation Project

Project Design

The HDPE and PVC conduits placed in the duct bank will be encased in a thermal concrete envelope. The typical duct bank trench will be approximately four feet wide and five feet deep. Manholes will be installed along the underground cable route spaced approximately 1,500 to 1,800 feet apart. Each manhole will be approximately 8 feet wide by 8 feet high and 24 feet long. See attached Exhibit D for project plan and profile drawings for the proposed duct bank, duct bank cross section data, trench backfill specifications.

Municipal Permits

Upon issuance of the requested GOL, Eversource's contractor shall obtain all required local municipal permits prior to beginning work within the Town (e.g., street opening, curb cut, trench permits, etc.). The Contractor shall work with the Town's engineering and public works departments to ensure that all disturbances to the public are avoided and/or minimized to the greatest extent possible. Eversource will provide contact information for appropriate personnel for use by Town officials and concerned citizens during construction activities. Lastly, please see the attached Exhibit E for a list of abutters that has been provided by the Town.

As such, Eversource respectfully requests the Town to issue a GOL as set forth above. If you have any questions or require additional information, please contact me at your earliest convenience.

Sincerely,

Theresa Feuersanger

Grant of Location Request
West Roxbury to Needham DCT Separation Project

Exhibit A
Grant of Location Petition

**PETITION FOR GRANT OF LOCATION FOR
WIRES, CABLES, POLES, PIERS, ABUTMENTS, CONDUITS OR FIXTURES**

Town of Needham, Massachusetts

Board of Selectmen

Date: May 23, 2018

RESPECTFULLY represents **NSTAR ELECTRIC COMPANY d/b/a/ EVERSOURCE ENERGY** (hereinafter known as the PETITIONER) a company incorporated for the transmission of electricity, lighting, heating or power, that it desires to construct upon, along, under or across the public way(s) of the Town of Needham, wires, cables, poles, piers, abutments, conduits or fixtures.

WHEREFORE, your PETITIONER prays that, after due notice and public hearing as provided by law, the Board of Selectmen may by Order grant to the PETITIONER permission to construct, in accordance with plan(s) dated **May 10, 2018**, the following (describe work):

Installation of new 115 kV underground transmission line beneath and within the public ways of the Town of Needham along Valley Road, Peacedale Road, Great Plain Avenue, South Street and High Rock Street. The underground transmission line will consist of a "duct bank" with electric transmission cables installed within individual High-Density Polyethylene ("HDPE") conduits. The duct bank will consist of four 8 ⁵/₈ -inch-diameter HDPE conduits, as well as two 4-inch-diameter Polyvinyl Chloride ("PVC") conduits, and two 2-inch-diameter PVC conduits to carry communications lines and ground continuity conductors.

The PETITIONER understands and agrees that:

1. PETITIONER shall locate and complete all work as specified and approved by the Town.
2. PETITIONER shall comply with the requirements of existing ordinances and such as may hereafter be adopted governing the construction.
3. PETITIONER shall perform all work to the requirements and satisfaction of the Department of Public Works or other such officer(s) as may be hereafter appointed by the Town.
4. PETITIONER shall not commence work until after the Energy Facility Siting Board issues the final decision authorizing the work.

For the PETITIONER:

Exhibit B
Order for Grant of Location

**ORDER FOR GRANT OF LOCATION FOR
WIRES, CABLES, POLES, PIERS, ABUTMENTS, CONDUITS OR FIXTURES**

Town of Needham, Massachusetts
Board of Selectmen
Date: June 13, 2018

WHEREAS, **NSTAR ELECTRIC COMPANY d/b/a/ EVERSOURCE ENERGY** (hereinafter known as the PETITIONER) has petitioned for permission to construct a line for the transmission of electricity for lighting, heating or power upon, along, under or across the public way(s) of the Town of Needham, the following (describe work):

Installation of new 115 kV underground transmission line beneath and within the public ways of the Town of Needham along Valley Road, Peacedale Road, Great Plain Avenue, South Street and High Rock Street. The underground transmission line will consist of a "duct bank" with electric transmission cables installed within individual High-Density Polyethylene ("HDPE") conduits. The duct bank will consist of four 8 5/8 -inch-diameter HDPE conduits, as well as two 4-inch-diameter Polyvinyl Chloride ("PVC") conduits, and two 2-inch-diameter PVC conduits to carry communications lines and ground continuity conductors.

AND WHEREAS, notice has been given and a hearing held on said petition as provided by law;

NOW THEREFORE BE IT ORDERED that the PETITIONER be and hereby is granted permission to construct a location for the construction described above, all in accordance with the following conditions:

1. PETITIONER shall locate and complete all work as shown by plan(s) dated **May 10, 2018**, and as may have been amended by the Town.
2. PETITIONER shall comply with the requirements of existing ordinances and such as may hereafter be adopted governing the construction.
3. PETITIONER shall perform all work to the requirements and satisfaction of the Board of Selectmen or other such officer(s) as may be hereafter appointed by the Town.
4. PETITIONER shall not commence work until after the Energy Facility Siting Board issues the final decision authorizing the work.

The plan view shows the layout of the proposed underground transmission lines between Needham Substation and Baker Street Substation. The map includes stationing from 1+00 to 5+00 along the top and bottom edges. Key features include:

- Needham Substation:** Located at the top left, showing riser structures at stations 0+10 and 0+20, and a detail callout for station 0+10.
- Proposed Underground Transmission Line:** Shown as a series of curves with callouts for 200' and 300' radii.
- Grades:** Indicated by lines labeled "GRADE" at various points along the route.
- Stationing:** Marked at 1+00, 2+00, 3+00, 4+00, and 5+00.
- Match Lines:** A match line at station 4+00 indicates the connection to sheet 4.
- Baker Street Substation:** Located at the bottom right, showing a riser structure at station 5+00.

NOTICE

To the Record

You are hereby notified that a public hearing will be held at the **Needham Town Hall, 1471 Highland Avenue, at 7:30 p.m. on Wednesday, June 13, 2018** upon petition of Eversource Energy dated **May 23, 2018** for the construction of a new electric transmission line within public ways as provided for herein.

Project Description: Approximately 15,000 feet of new underground transmission line cable are proposed to be installed within the public ways of the Town of Needham. The proposed underground transmission line will consist of a "duct bank" with electric transmission cables installed within individual High-Density Polyethylene ("HDPE") conduits. The duct bank will consist of four 8 5/8" diameter HDPE conduits, as well as two 4-inch-diameter Polyvinyl Chloride ("PVC") conduits, and two 2-inch-diameter PVC conduits to carry communications lines and ground continuity conductors.

The project route has been included in this mailing. For more information regarding this request, read the attachment to the News Flash on our website at www.needhamma.gov.

A public hearing is required and abutters should be notified.

If you have any questions regarding this petition, please contact Eversource Energy representative, Theresa Feuersanger at 781-441-8277.
