Said districts are located and bounded as shown on a map entitled “Zoning Map of the Town of Needham, Mass.” dated September, 1924, as revised and amended to date and on file in the Office of the Town Clerk and as further described for Flood Plain Districts in Section 2.3. The Zoning Map with boundaries of the districts and all explanatory matter thereon is hereby made a part of this By-Law.

2.2.1

Where a district boundary is shown as following a street, railroad or utility, the boundary shall be the center line thereof as said line existed at the date of the adoption of the Zoning Map, unless otherwise indicated.

2.2.2

Where a district boundary is indicated as a property or lot line and the exact position of such line is not defined by measurements, the true location thereof shall be taken as the boundary line as said line existed at the date of the establishment of such boundary.

2.2.3

Where a district boundary is shown outside of a street, railroad or utility and approximately parallel thereto, the boundary shall be deemed parallel to the nearest line thereof, and the figure placed on the Zoning Map between the boundary and such line shall be the distance in feet between them, as measured at a right angle from such line otherwise indicated.

2.2.4

Where a district boundary is shown as following a watercourse, the boundary shall coincide with the center line thereof as said line existed at the date of the establishment of such boundary.

2.2.5

Where a district boundary shall include a numerical figure followed by the letters, M.S.L., it is at that number of feet above mean sea level.

2.2.6

Where the location of a district boundary line is otherwise uncertain, the location thereof shall be determined with the distance in feet from other lines of bounds as given or as measured from the scale of the Zoning Map.
